TABLES & STORAGE | STORAGE CUBBIES

WEDGE CUBBY & PAD

Product No. CG108 & FCG108

Designed to add multifunctional, space-efficient storage to the Fōmcore Armless Seating series, the Wedge Cubby options offer additional seamless in-line seating with just the right amount of storage to accommodate Lily Pads or student belongings.

The Wedge Cubby is fully laminated, available in an 18″ height version to function like a table, or a 15″ height version with 3″ height pad to integrate into the adjacent soft seating surfaces. It also may be outfitted with glides or casters to match the adjacent seating.

The introduction of a Wedge Cubby within an Armless seating configuration extends the functionality of the soft seating grouping and can afford teachers improved lines of sight.
