Energize the Environment

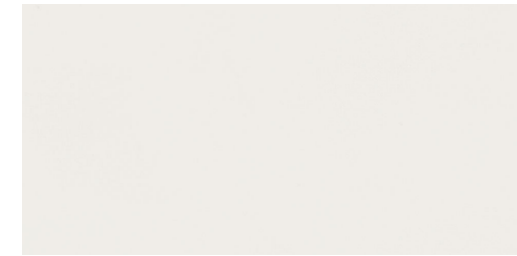

This bold, joyful palette is designed to spark energy, imagination, and connection in every corner of a learning space. Colors do more than brighten a room. They signal that learning can be dynamic, creative, and full of joy.

One of the first things a learner experiences when entering a space is color. It can shape how they feel, how they focus, and how they belong to their environment.

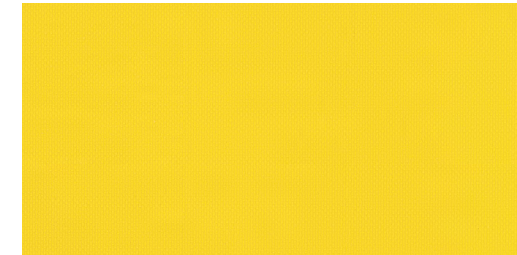

Energetic, bright, intentional palettes support:

- Increased engagement and participation
- Heightened creativity and curiosity
- Improved emotional regulation and comfort
- Stronger connections with peers and educators

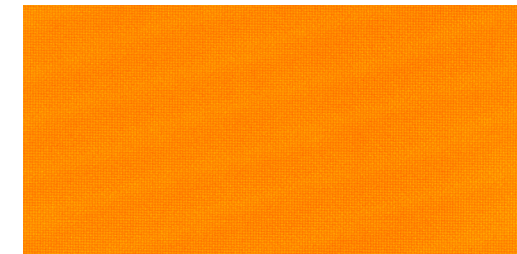

When learners feel ENERGIZED, anything is possible!

Yinka Ilori is a British-Nigerian multidisciplinary artist and designer whose bold, vibrant works draw inspiration from his dual heritage.

Seeing the playful designs he creates for urban spaces, as well as how he effortlessly infuses dull, mundane objects with a new light, Momentum realized the unique opportunity to re-imagine our approach to professional interiors. By incorporating Yinka's masterful use of color, designers can spark feelings of joy and optimism in their spaces and leave an everlasting impression.
